

Note-Taking: Tips & Skills

"Nobody wants to show you the hours and hours of becoming. They'd rather show the highlight of what they've become."

ANGELINA DUCKWORTH

Have you watched
this video and
completed TASK 1 ?

Task 1 helped you to take Cornell notes from
what you READ.

Now we will practice learning to take Cornell
notes from what we HEAR.

Making notes from a LECTURE involves a lot of *LISTENING* while Note-taking

Some students take notes afterwards - if it is filmed. Others record it on their phones.

Making notes from
VIDEOS and PODCASTS
is easier as you can
PAUSE...

but it still involves a lot
of *LISTENING* while
NOTE-TAKING

OMG! These are world class notes!!

Advice before you start

How can you listen
and take notes at the same time?

[Click to watch](#)

Your task

LISTEN and **MAKE CORNELL NOTES**

LISTEN to this video on the **Chimp Paradox** by Professor Steve Peters. It's a lecture to sixth form students.

The video will help you understand some of your own behavior, especially if you are involved in sport or like to perform at a high level in anything – so it is very useful, whatever subject you take at university

Big picture: establish what the whole source of writing is about (so look at the title and the first paragraph). This helps your understanding.

Key points: scan the headings and sub-headings before you read in detail.

This helps identify what might be important as key points to go in the left hand-side of your Cornell notes.

Be creative: use diagrams and underlining, colours, arrows and links

Be individual: do what works for you

Be selective: avoid copying out chunks of writing.

Skill: making selective notes isn't easy: you need to keep doing it until you get better.

It will be hard at first and you will be tempted to simply copy out chunks, as you normally do: that isn't helpful at all! Get out of that habit!

PREPARATION FOR COLLEGE

GET A FOLDER (ONE FROM A GCSE SUBJECT WILL DO)

THIS FOLDER IS TO KEEP THE WORK YOU NEED AS PART OF YOUR PASSPORT TO SIXTH FORM

KEEP YOUR NOTES ON 'CHIMP PARADOX?' AND PUT THEM IN THE FOLDER

Have you a GOAL in mind when you start college?

WHAT'S NEXT?

To perform at a high level requires a great deal of **hard work** and **sacrifice**.

Having a goal will help **motivate** you...so we will look at that next.
