

Equipment List – Enrolment

A Level/Academic Subjects

If the subject that you're planning to study is not featured on the details below, then please assume that there is no specialist equipment that you need.

Applied Sciences

There is no need to purchase a lab coat prior to the start of term. There will be opportunities to purchase lab coats when term starts and before practical aspects of the course start. We require lab coats to meet certain safety standards and therefore we provide details of suitable lab coats at the start of term.

These lab coats will be available to be purchased through ParentPay at the start of term and the typical cost will be £12 - £15.

We would also recommend that students purchase their own safety glasses. The typical cost of suitable glasses would be £3 - £5.

Biology

There is no need to purchase a lab coat prior to the start of term. There will be opportunities to purchase lab coats when term starts and before practical aspects of the course start. We require lab coats to meet certain safety standards and therefore we provide details of suitable lab coats at the start of term.

These lab coats will be available to be purchased through ParentPay at the start of term and the typical cost will be £12 - £15.

Please note separate lab coats will NOT be needed if the student is studying two science subjects ie Chemistry and Biology. The same personal lab coat can be used in both subject lessons.

We would also recommend that students purchase their own safety glasses. The typical cost of suitable glasses would be £3 - £5.

Chemistry

There is no need to purchase a lab coat prior to the start of term. There will be opportunities to purchase lab coats when term starts and before practical aspects of the course start. We require lab coats to meet certain safety standards and therefore we provide details of suitable lab coats at the start of term.

These lab coats will be available to be purchased through ParentPay at the start of term and the typical cost will be £12 - £15.

Please note separate lab coats will NOT be needed if the student is studying two science subjects ie Chemistry and Biology. The same personal lab coat can be used in both subject lessons.

We would also recommend that students purchase their own safety glasses. The typical cost of suitable glasses would be £3 - £5.

Fine Art

Due to Public Health issues relating to the Corona Virus, we would strongly advise all Yr1 students and parents buy a small pack of materials. This year we're upgrading the pack to include a much wider range of equipment. The cost is £30.00. The packs can be purchased when term starts.

With this larger pack of materials, it's much easier for students to take ownership of the materials and use it more flexibly if students must work from home for any period of time.

Year 2 students can simply use their pre-existing Art Pack. Any who want to upgrade can do so on an individual basis.

We would advise both Year 1 and 2 students to bring their own personal 'old shirt' in for any 'messy' lessons.

Graphics

Due to Public Health issues relating to the Corona Virus, we are recommending the new students purchase a pack of Graphics materials for September so that they can start work right away. This will minimise the need to share materials. This pack is on ParentPay at £19. The purchase of the pack is of course, optional and students are welcome to buy their own materials. The pack contains the following essentials:

- A3 Zip top bag for the Kit
- A3 wirebound sketchbook (140gsm paper)
- Fineliner set (0.05, 0.1 0.3 0.5 0.8)
- 30cm steel ruler
- 20cm scissors
- 2B pencil
- Plastic eraser
- Pritt stick
- Invisible tape (2 rolls)
- 16Gb Toshiba USB stick

They will need to replace and renew this kit as they are consumables and some of the items will be available for replacement in the studio during term time (e.g. Pritt Stick)

Textiles

Due to Public Health issues relating to the Corona Virus, we would strongly advise all Yr1 students and parents buy a small pack of materials. This year we're upgrading the pack to include a much wider range of equipment. The cost is £30.00. The packs can be purchased when term starts.

With this larger pack of materials, it's much easier for students to take ownership of the materials and use it more flexibly if students must work from home for any period of time.

Year 2 students can simply use their pre-existing Art Pack. Any who want to upgrade can do so on an individual basis.

We would advise both Year 1 and 2 students to bring their own personal 'old shirt' in for any 'messy'
